INDEPENDENT AUDITOR'S REPORT

To the Members
New York State Thoroughbred Breeding and Development Fund

Report on the Financial Statements

We have audited the accompanying financial statements of the New York State Thoroughbred Breeding and Development Fund (the Fund), a component unit of the State of New York, as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the Fund's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2019 and 2018, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 3 through 5, schedules of proportionate share of the net pension liability (asset), the schedules of Fund contributions, and the schedule of total OPEB liability on pages 30-32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2020, on our consideration of New York State Thoroughbred Breeding and Development Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the New York State Thoroughbred Breeding and Development Fund's internal control over financial reporting and compliance.

NEW YORK STATE THOROUGHBRED BREEDING
AND DEVELOPMENT FUND CORPORATION
(A Component Unit of the State of New York)
Management's Discussion and Analysis
December 31, 2019 and 2018

Management of the New York State Thoroughbred Breeding and Development Fund Corporation (the Fund) offers readers of the Fund's financial statements this analysis of the financial activities of the Fund for the years ended December 31, 2019 and 2018.

Following this Management's Discussion and Analysis (MD&A) are the financial statements of the Fund together with the notes thereto. Please read the MD&A in conjunction with the Fund's financial statements and the accompanying notes in order to obtain a full understanding of the Fund's financial position and results of operations.

The Fund was created by an Act of the State of New York (the State), as more fully described in note 1 of the financial statements, and commenced operations in 1973. The Fund's mission statement is: "To promote by monetary incentives the responsible breeding of quality thoroughbred racehorses in keeping with the founding legislation to preserve New York's irreplaceable farmland."

OVERVIEW OF FINANCIAL STATEMENTS

This annual financial report consists of two parts: Management's Discussion and Analysis (this section) and the basic financial statements. The Fund follows enterprise fund reporting; therefore, the financial statements are presented using the economic resources measurement focus and the accrual basis of accounting.

FINANCIAL ANALYSIS OF THE FUND

Net Position

Cash and equivalents increased by \$325,444 in 2019 as compared to 2018. The increase is attributed to a \$316,370 supplemental award earned on 2019 awards and included in Awards payable at year-end.

By statute, the Fund pays the Harry M. Zweig Memorial Fund of Cornell University 2% of its operating revenues to fund equine research. The Fund's 2019 revenues decreased slightly over 2018 amounts. The amount payable to Cornell University for 2019 is \$388,449, a decrease of \$2,240 from the 2018 contribution.

In 2018, the Fund adopted GASB Statement No. 75 - "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." This Statement established new accounting and financial reporting requirements for governments whose employees are provided with OPEB. The adoption of this Statement resulted in a restatement of January 1, 2018 net position and the recognition of deferred outflows of resources, deferred inflows of resources and an adjustment of the Fund's share of OPEB liability.

In accordance with the Racing Pari-mutuel Wagering and Breeding Law enacted by the New York State Legislature in 1973, moneys of the Fund in excess of \$75,000 on hand at the end of the calendar year must be paid to the State and to the regional off-track betting corporations.

Operating Activities

Under founding statutes, the Fund receives revenue from on-track and off-track thoroughbred handle in New York, and breakage from regional off-track betting wagers. Handle accounted for approximately 28% and 29% of revenue in 2019 and 2018, respectively, while breakage is 2% of total operating revenue for both years.

The Fund obtained an additional contractual source of revenue from VLTs at Finger Lakes Gaming and Racetrack beginning in 2004, which provided approximately 7% of total operating revenue for both 2019 and 2018. Further enhancing Fund revenues, Resorts World Casino New York City began operation of VLTs at Aqueduct Racetrack in late 2011. Statutory revenue received from this operation is approximately \$10.2 million in 2019 and \$10.4 million in 2018 or 52% and 53% of total operating revenue, respectively. A VLT recapture established in 2016 allows the Fund to maintain revenues from Resorts World VLTs at 2013 levels adjusted annually by the Consumer Price Index. The addition of \$951,225 in 2019 and \$552,836 in 2018 for the VLT recapture resulted in a combined percentage from all VLT revenue sources in 2019 of 64% versus 63% in 2018.

Management's Discussion and Analysis
December 31, 2019 and 2018

Effective January 1, 2014, legislation provided for the Fund to receive revenues from Advanced Deposit Wagering (ADW) sources. Total ADW revenue accounted for 5% of the Fund's total operating revenue in both 2019 and 2018.

Total 2019 operating revenues of approximately \$19.4 million is \$112,000 less than 2018. The Fund paid 100% of all breeder, stallion, and owner awards earned in 2019. The Fund also authorized a 2% supplemental award to all 2019 award earners and an additional \$200,000 in purse enrichment to New York Racing Association for the New York Stallion Stakes Series.

**NEW YORK STATE THOROUGHBRED BREEDING
AND DEVELOPMENT FUND CORPORATION
(A COMPONENT UNIT OF THE STATE OF NEW YORK)
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018**

(1) Organization

The New York State Thoroughbred Breeding and Development Fund Corporation (the Fund) is a public benefit corporation organized pursuant to Sections 251 through 257 of the Racing, Pari-mutuel Wagering and Breeding Law (the Law) enacted by the New York State Legislature in 1973. The Fund is a component unit of the State of New York (the State) and is included in the State's Comprehensive Annual Financial Report of the Comptroller as a public benefit corporation.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Fund have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles.

For the year ended December 31, 2019, the Fund adopted:

- GASB Statement No. 83 – “Certain Asset Retirement Obligations”. This Statement, issued in November 2016, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. The provisions of this Statement are effective for financial statements for fiscal years beginning after June 15, 2018, which is the fiscal year beginning January 1, 2019 for the Fund. This Statement had no material effect on the financial statements of the Fund.
- GASB Statement No. 84 – “Fiduciary Activities”. This Statement, issued in January 2017, is to provide guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The provisions of this Statement are effective for financial statements for fiscal years beginning after December 15, 2018, which is the fiscal year beginning January 1, 2019 for the Fund. This Statement had no material effect on the financial statements of the Fund.
- GASB Statement No. 88 – “Certain Disclosures Related to Debt”. The objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The provisions of this Statement are effective for financial statements for fiscal years beginning after June 15, 2018, which is the fiscal year beginning January 1, 2019 for the Fund. This Statement had no material effect on the financial statements of the Fund.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018**

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

- GASB Statement No. 90 – “Majority Equity Interests”. The objectives of this Statement are to improve the consistency and comparability of reporting a government’s majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The provisions of this Statement are effective for financial statements for fiscal years beginning after December 15, 2018, which is the fiscal year beginning January 1, 2019 for the Fund. This Statement had no material effect on the financial statements of the Fund.

(b) Assets, Liabilities and Net Position

- Receivables consist of handle, breakage, a percentage of Advanced Deposit Wagering (ADW), and a percentage of Video Lottery Terminal (VLT) revenue amounts which are reported at their outstanding unpaid principal balances. The Fund records revenues receivable at estimated fair value, net of an allowance based upon the estimated collectability. The allowance was \$189,100 and \$185,565 for 2019 and 2018, respectively.
- Retirement Plan - The Fund provides retirement benefits for its employees through contributions to the New York State Employees’ Retirement System. The System provides various plans and options, some of which require employee contributions. Note 8 provides more information on the retirement plan.
- The Fund expenses advertising and promotion costs as incurred. Advertising costs for the years ended December 31, 2019 and 2018 amounted to \$311,238 and \$322,718, respectively. Promotion costs for the years ended December 31, 2019 and 2018 were \$816,667 and \$769,949, respectively.
- Other areas of assets, liabilities and net position are addressed throughout these footnotes.

(c) Deferred Outflows and Inflows of Resources

In the Statement of Net Position, in addition to assets, the Fund will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Fund has three items that qualify for reporting in this category. The first item is related to pensions reported in the Statement of Net Position. This represents the effect of the net change in the Fund’s proportion of the

collective net pension asset or liability and difference during the measurement period between the Fund's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is the Fund contributions to the New York State and Local Employees' Retirement System (the System) and OPEB subsequent to the measurement date. The third item relates to the OPEB reporting number which represents the effect of the net change in the actual and expected experience.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The Fund has two items that qualify for reporting in this category. The first item is related to pensions reported in the Statement of Net Position. This represents the net effect of the change in the Fund's proportion of the collective net pension liability related to its participation in the System and differences between the Fund's contributions and its proportionate share of total contributions to the System not included in pension expense. The second item is related to the OPEB reported in the Statement of Net Position. This represents the effects of the differences between actual and expected experience and changes of assumptions or other inputs.

(d) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosures at the date of these financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(e) Property, Equipment and Depreciation

Property and equipment are reported at cost. Purchases and improvements over \$1,000 are capitalized. Maintenance and repairs are expensed as incurred. For assets placed in service, depreciation and amortization is calculated over estimated useful lives of between 3 -10 years using the straight-line method.

(f) Subsequent Events

The Fund has evaluated subsequent events through the date of the auditor's report which is the date the financial statements were available to be issued. Other than the item noted below, there were no subsequent events requiring recording or disclosure.

(2) Summary of Significant Accounting Policies

(f) Subsequent Events – Potential Impact of Coronavirus

The outbreak of COVID-19, a respiratory disease, which was first detected in China and has since spread to other countries, including the United States, has been characterized as a pandemic by the World Health Organization on March 11, 2020. As of the date of the audit report, the extent to which the pandemic may impact the supply chain, demand for services, contributions, and the Fund's future fiscal or operating results, is uncertain.

(3) Cash and Equivalents and Investments

The Fund's investment policies are governed by New York State Statute. Fund monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. The Fund is authorized to use demand accounts, certificates of deposit and short-term U.S. Treasury bills or notes.

Collateral is required for demand deposits and certificates of deposit in an amount equal to or greater than the amount of all deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are outlined in chapter 623 of the laws of the State of New York.

Custodial Credit Risk - This is the risk that in the event of a bank failure, the Fund's deposits may not be returned to it. As noted above, by State statute, all deposits in excess of FDIC insurance coverage must be collateralized. As of December 31, 2019 and 2018, all uninsured bank deposits were fully collateralized with securities held by the pledging financial institution's trust department or agent as part of the collateral used to secure all the institution's deposits from the State of New York.

(4) Receipt and Distribution of Revenue and Basis of Net Position

New York State Racing, Pari-Mutuel Wagering and Breeding law (the Law), Section 254, provides for Fund revenues from New York on-track and off-track thoroughbred handle and breakage from regional off-track betting wagers as well as from Video Lottery Terminal (VLT) gaming devices at Finger Lakes Gaming and Racetrack, and Resort World Casino-New York City.

- Handle: Handle of one-half of one percent (.5%) of the regular, multiple, exotic and super exotic wagers are paid to the Fund. The Fund receives an additional two-tenths of 1% (.2%) of live racing handle only at New York Racing Association (NYRA) tracks. However, under Section 905(4) of the Law, when out-of-state track retention rates vary from New York State retention rates, entities are entitled to pro-rate the difference. This reduces the overall handle received by the Fund to less than .5%. "Special Event" races, which include the Kentucky Derby, the Preakness and the Breeder's Cup, generate handle of one-half of one percent (.5%), as specified in Section 904 of the Law, with NYRA paying an additional .2%.

(4) Receipt and Distribution of Revenue and Basis of Net Position

- Breakage: Twenty percent of New York State off-track betting breakage from bets on harness races and fifty percent on all other races is paid to the Fund and to the Agriculture and New York State Horse Breeding Development Fund; the Fund receives one half of such payments.
- VLT – Finger Lakes Gaming and Racetrack: The Fund receives revenue from VLT devices at Finger Lakes Gaming and Racetrack under statute at 1.25% of Net Win.
- VLT – Resort World Casino – New York City: In 2011, the Fund began to receive VLT device revenue from Resorts World Casino - New York City (RW) at the Aqueduct Racetrack at the rate of 1% of Net Win. The rate increased to 1.25% in October of 2012, and to 1.5% in October 2013. On October 15, 2016, RW entered into an agreement with Nassau OTB to host up to 1,000 VLT devices. Machines designated by RW to Nassau OTB will pay the Fund a reduced rate of .5% of Net Win. There were 1,000 and 505 VLT machines designated to Nassau OTB at December 31, 2019 and 2018, respectively.
- VLT – Nassau OTB and Suffolk OTB: The Fund receives .5% of VLT revenues from Nassau OTB and Suffolk OTB under New York State Tax Code, Section 1612. Amounts collected by the Fund in excess of the amount necessary to maintain payments from VLTs at RW at the same level realized in 2013, adjusted by the Consumer Price Index, must be returned to the New York Gaming Commission. The Fund recognized revenues of \$951,225 and \$552,836 and payables to the New York Gaming Commission of \$1,210,420 and \$1,242,949 at December 31, 2019 and 2018, respectively.
- ADW: Effective January 1, 2014, New York State Racing, Pari-Mutuel Wagering and Breeding law, Section 115-b, provides for Fund revenues generated from out of state ADW handle from New York State residents.

Moneys received by the Fund are disposed and distributed, and the Fund's net position is maintained, in accordance with the Law, Section 254. The Fund is authorized to dispose and distribute the moneys received by it for the following purposes and no other:

- Awards: An amount as determined by the Fund but not in excess of: (a) 43% as awards to breeders of New York-breds finishing first, second, third and fourth in races, (b) 33% as awards to owners of New York-breds finishing first, second, third and fourth in open races, (c) 15% as awards to stallion owners, whose New York stallions have sired New York-breds finishing first, second, third and fourth in races. However, the Fund, with two-thirds vote of its Board of Directors, may increase these awards up to but not in excess of (a) 65% as awards to breeders, (b) 40% as awards to owners and (c) 20% as awards to stallion owners. On August 16, 2008 the Board approved a motion to limit the distribution of monies to first, second and third place finishing New York-breds effective September 1, 2008.

(4) Receipt and Distribution of Revenue and Basis of Net Position

- Purse: An amount as determined by the Fund but not in excess of 44% to provide purse moneys for races exclusively for New York-breds entered in all races, the conditions of which have been approved by the Fund. In addition, 75% of in-state breakage revenue is to be provided to Finger Lakes Gaming and Racetrack for purse enrichment.
- Promotion: Up to 6% to advance and promote breeding and raising of thoroughbreds in New York. This cap will be decreased to 5% as of October 28, 2020.
- Administration: Up to 5% for the administration and management of the Fund. This cap will be decreased to 4% as of October 28, 2020.
- Equine research: An amount equal to 2% thereof for the promotion of equine research.
- At the end of any calendar year, any Fund net position on hand in excess of \$75,000 shall be remitted to and vested in the State or the contributing Off-Track Betting Corporations.

Distribution of awards and purses is as follows:

	<u>2019</u>	<u>2018</u>
Breeder awards	\$ 10,597,867	\$ 10,563,562
Stallion awards	2,646,566	2,616,709

The awards payable reserve represents the retention of 10% of awards due as established in accordance with Fund policy. The reserve at December 31, 2019 was paid out in January 2020.

(5) Investment Policy

The Fund's investment policy requires that all funds available for investment be deposited in interest-bearing accounts or fully secured certificates of deposit with New York State banks for the shortest possible terms and at the highest available interest rates, or in United States Treasury short-term bills or notes at the highest available rate. As of December 31, 2019 and 2018 the Fund maintained available funds in interest bearing checking accounts, since the rate of return was comparable to short-term Treasury bills.

(8) Pension Plan

(a) Plan Descriptions and Benefits Provided

The Fund participates in the New York State and Local Employees' Retirement System (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (NYSCRF), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the NYSCRF and is the administrative head of the System. Benefits are established under

the provision of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Fund also participates in the Public Employees Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/retire/publications/inex.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, New York 12244.

The System is noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 and before April 1, 2012 who generally contribute 3.0 to 3.5 percent of their salary for their entire length of service. For employees joining on or after April 1, 2012, employee contribution rates under System tier VI vary based on a sliding salary scale. The Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31.

Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>ERS</u>
2019	\$ 62,415
2018	63,064
2017	61,770

(b) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2019, the Fund reported the following liability for its proportionate share of the net pension liability for the System. The net pension liability was measured as of March 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation. The Fund's proportionate share of the net pension liability was based on a projection of the Fund's long-term share of contributions to the System relative to the projected contributions of all participating members, actuarially determined. This information was provided by the System in reports provided to the Fund.

(c) Actuarial Assumptions

The total pension liability as of the March 31 measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

Significant actuarial assumptions used in the valuations were as follows:

Measurement date	March 31, 2019	March 31, 2018
Actuarial valuation date	April 1, 2018	April 1, 2017
Investment return	7.0%	7.0%
Salary scale	4.2% Average	3.8% Average
Decrement tables	April 1, 2010 - March 31, 2015 ERS's Experience	April 1, 2010- March 31, 2015 ERS's Experience
Inflation rate	2.5%	2.5%

Annuitant mortality rates are based on April 1, 2010 - March 31, 2015 System's experience with adjustments for mortality improvements based on the Society of Actuaries Scale MP-2014 for the March 31, 2019 and March 31, 2018 measurement dates.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

The real rate of return is net of the long-term inflation assumption of 2.50%

(1) Excludes equity-oriented and long-only funds. For investment management purposes, these funds are included in domestic equity and international equity, respectively.

(d) Discount Rate

The discount rate used to measure the total pension liability was 7.0% for the measurement dates ended March 31, 2019 and 2018. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

(e) Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the Fund's proportionate share of the net pension liability calculated using the discount rate of 7.0% for both 2019 and 2018, as well as what the Fund's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.0%) or 1-percentage point higher (8.0%) than the current rate:

Employer's proportionate share of the net pension asset (liability)	\$ <u>(297,159)</u>	\$ <u>(39,274)</u>	\$ <u>178,886</u>

Changes of Assumptions

Changes of assumptions about future economic or demographic factors or other inputs are amortized over a closed period equal to the average of the expected service lives of all employees that are provided with pension benefits.

Collective Pension Expense

Collective pension expense includes certain current period changes in the collective net pension asset/(liability), projected earnings of pension plan investments, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period. The collective pension expense for 2019 and 2018 is \$68,858 and \$56,772, respectively.

(g) Contributions to the Pension Plan

Employer contributions are paid annually based on the System’s fiscal year which ends on March 31st. Retirement contributions as of December 31, 2019 and 2018 represent the projected employer contribution for the period of April 1, 2019 through March 31, 2020 and April 1, 2018 through March 31, 2019, respectively based on paid System wages multiplied by the employer’s contribution rate, by tier. These amounts have been recorded as deferred outflows of resources in the accompanying financial statements.

(9) Postemployment Benefits Other Than Pensions

Change in Accounting Principle and Restatement of Net Position

For the fiscal year ended December 31, 2018, the Fund implemented GASB Statement No. 75, *Accounting Financial Reporting for Postemployment Benefits Other Than Pensions*. The implementation of the statement required the Fund to report Other Post-Employment Benefits (OPEB) liabilities, OPEB expenses, deferred outflow of resources and inflow of resources related to OPEB. The implementation of the statement resulted in an increase in the liability for Other Post Employment Benefits Payable in the Statement of Net Position. The Fund’s net position for 2018 has been restated as follows:

Net Position beginning of year, as previously stated	\$ 75,000
GASB Statement No. 75 implementation	<u>(581,314)</u>
Net position beginning of year, as restated	<u>\$ (506,314)</u>

Plan Description

The Fund administers a defined benefit OPEB plan and provides OPEB for all permanent full-time employees of the Fund with ten years of credited service. The plan is a single-employer defined benefit plan (the Plan). The Plan provides Article 11 of the State Compiled Statutes which grants the authority to establish and amend the benefit terms and financing requirements to the Fund’s Board. The Plan does not issue a separate financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan. No assets are accumulated in trust that meet the criteria in paragraph 4 of Statement No. 75.

Funding Policy

The Fund provides continuation of medical coverage for employees that retire no earlier than age 62 or have at least twenty years of credited State service or are vested in the retirement system plan with ten years of credited service. The Fund will also provide coverage in the event of early retirement if the employee qualifies for a State disability pension. The Fund contributes 75% of costs for an individual policy and 35% of the difference between the cost of family and individual coverage. Surviving spouses of retired employees with at least ten years of service are also eligible for continued health insurance coverage subject to a 25% co-pay. The Fund reimburses retirees and their spouses for Medicare Part B premium costs. The Fund currently funds the plan to satisfy current obligations on a pay-as-you-go basis. The Fund expensed medical coverage for six retired employees totaling \$59,689 and \$55,631 for the years ended December 31, 2019 and 2018, respectively.

Benefits Provided

The Fund provides for continuation of medical and/or Medicare Part B benefits for certain retirees and their spouses. Retirees and their spouses receive benefits for their lifetime.

Employees Covered by Benefit Terms – As of the actual valuation date, the following employees were covered by the benefit terms:

Active not eligible to retire	5

Healthcare cost trend rates	5.20% adjusted annually to an ultimate rate of 4.18% after 2070	5.20% adjusted annually to an ultimate rate of 4.32% after 2070

Mortality rates at December 31, 2019 were based on Pub-2010 Public Retirement Plans Mortality Tables, Headcount-Weighted, distinct for Teachers, General, and Safety, without separate Contingent Survivor mortality, fully generational using scale MP-2019.

Mortality rates at December 31, 2018 were based on Adjusted RPH-2014 combined mortality, fully generational using scale MP-2018.

Retirement participation rate assumed that 100% of active employees eligible for coverage will elect the benefit and 70% of both male and female employees are to be married at retirement and elect coverage for a spouse. For active employees, it was assumed male spouses to be three years older than female spouses. For current retirees, actual census information was used.

Termination rates are based on the 2003 Society of Actuaries small plan withdrawal.

(10) Concentration of Risk - Long-Term Receivable and Payable

In 2011, Suffolk OTB sought protection from its creditors with the filing of a petition for bankruptcy in the Eastern District of New York under Chapter Nine of the U.S. Bankruptcy Code. Under the terms of the original filing, Suffolk OTB was able to delay payment on debts owed as of the filing date while continuing to make payments on all debts incurred from that date forward. Amounts due and owing to the Fund from the OTB at the time of the filing included Handle and Breakage totaling \$56,243 and \$74,031 for 2012 and 2011, respectively. Although protected by Schedule F - Creditors Holding Unsecured Non-priority Claims in the 2012 filing, the Fund fully allowed for the non-collectability of these amounts in its 2012 financial statements.

In October 2014, the Suffolk OTB received court approval on a plan of repayment. The repayment is contingent on several factors. The Fund received \$59,422 and \$17,586 in payments against the amount filed in bankruptcy for the years ended December 31, 2019 and 2018, respectively. Additional payments are anticipated but the timing or amount remains uncertain at this time.

Suffolk OTB accounted for \$367,204 and \$403,193 or approximately 1.9% and 2.1% of the total operating revenue reported by the Fund for the years ended December 31, 2019 and 2018, respectively.

(11) Contingencies

Beginning February 1, 2013, the Fund came under the umbrella of the new Gaming Commission of the State of New York. It is anticipated that this reorganization will not significantly impact the Fund's mission or revenue sources. In response, the Fund relocated its operations to the New York State Gaming Commission building in Schenectady, New York, during December 2012.

The Fund has a Shared Services Agreement with the New York State Gaming Commission for office space, utilities, and use of Gaming Commission employees. The agreement has a ten year term that expires December 31, 2023, but may be terminated by either party with sixty days' advance written notice. Occupancy expenditures for the years ended December 31, 2019 and 2018 were \$23,536 and \$22,818, respectively. Future payments under this agreement are estimated as follows:

2020	\$ 22,000
2021	22,500
2022	23,000
2023	<u>23,500</u>
	<u>\$ 91,000</u>

(12) Legal Proceedings and Claims

In the ordinary course of business, the Fund may be subject to certain legal proceedings and claims. For any actions that are not otherwise covered by liability insurance, management believes that the resulting outcome of any such actions will not have a material adverse effect on the financial condition or results of operations of the Fund. In addition, when a loss contingency becomes probable, management establishes reserves.

(13) Accounting Standards Issued But Not Yet Implemented

- GASB Statement No. 87 – “Leases”. The objective of this Statement is to better meet the information needs of financial statement users by improving the accounting and financial reporting for leases by governments. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. The provisions of this statements are effective for financial statements reporting period beginning after December 15, 2019, which is the fiscal year beginning January 1, 2020 for the Fund. The effects of this Statement on the financial statements of the Fund are not presently determinable.
- GASB Statement No. 89 – “Accounting for Interest Cost Incurred Before the End of a Construction Period”. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The provisions of this Statement are effective for financial statements for fiscal years beginning after December 15, 2019, which is the fiscal year beginning January 1, 2020 for the Fund. The effects of this Statement on the financial statements of the Fund are not presently determinable.
- GASB Statement No. 91 – “Conduit Debt Obligations”. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The provisions of this Statement are effective for financial statements for fiscal years beginning after December 15, 2020, which is the fiscal year beginning January 1, 2021 for the Fund. The effects of this Statement on the financial statements of the Fund are not presently determinable.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Members
New York State Thoroughbred Breeding and Development Fund

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the New York State Thoroughbred Breeding and Development Fund (the Fund), a component unit of the State of New York, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Fund's basic financial statements, and have issued our report thereon dated March 25, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Fund's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Fund's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
