The payee name on awards checks will be single-party and by default will be either the IRS name (line 1 of the W-9) or the business name (line 2 of the W-9) of the managing partner. If there are exceptional circumstances in which neither of these names will suffice, then an optional check name will be utilized as requested by the client.

Only one check will be issued for each TIN. The award memos will detail activity by partnership and horse. Please keep this in mind before completing the following information.
